

BSc Honours/Postgraduate Diploma in Chemistry Mid Year 2009/10

COURSEWORK MODULE SELECTION FORM

Below are the details of coursework subjects and modules being offered in 2009. We strongly encouraged students to make their module selections in consultation with their supervisor. Once you have decided your selections please mark the appropriate modules with a ✓ or X in the boxes provided. Students that commence mid year 2009 are required to submit this completed form to Vicki Burley, room 253, School of Chemistry, by no later than Thursday 22nd July, 2009. A timetable for these subjects will be made available to students by Friday 24th July 2009 with lectures scheduled to commence the following week.

610-683 Chemistry 4B: (2 modules to be selected)

Module 1: Automatic Chemical Analysis – Spas Kolev

Module 2: Interfacial Chemistry and Sonochemistry – Muthupandian Ashokkumar and Franz Grieser

Module 3: Advanced Physical Organic Chemistry – Jonathan White

Module 4: Photochemistry and Electrochemistry in Synthesis – Uta Wille

Module 5: Biological and Medicinal Chemistry – Craig Hutton and Spencer Williams
