

# Organic Chemistry Seminar Program, Semester 2, 2009

Coordinator: Dr George Khairallah

E-mail: gkhai@unimelb.edu.au

Seminars will be held at 12 pm Fridays, in the Bio21 Auditorium  
(unless otherwise noted)

THE UNIVERSITY OF  
MELBOURNE

Date	Name	Title
Jul 31	<b>Joel Hooper</b> <i>PhD swansong</i>	An exo Selective Diels-Alder Approach to the Eunicellins
Aug-07	<b>Dr Sebastian Meiries</b> <i>Melbourne University</i>	Journey to the Centre of the ADDA World
Aug 14	<b>Prof Richard Wong</b> <i>National University of Singapore</i>	Understanding Stereoselectivity in Asymmetric Organocatalysis - A Computational Approach
Aug 21	<b>Suwan Yap</b> <i>PhD swansong</i>	Synthesis and Bioassay of Targeted Flavonols
Aug 28	<b>Quentin Churches</b> <i>PhD swansong</i>	Synthesis of highly Functionalized Amino Acids
Sept 04	<b>Dr Kathryn Fairfull-Smith</b> <i>QUT</i>	The Synthesis and Application of Isoindoline Nitroxides in Biological Systems and in Materials Science
Sept 11	<b>Yen Lim</b> <i>PhD swansong</i>	TBA
Sept 18	<b>Dr Fei Liu</b> <i>Macquarie University</i>	Multidentate Organocatalysis in Asymmetric Synthesis
Sept 25	<b>Sara Kyne</b> <i>PhD swansong ( Cuming Theatre )</i>	Understanding Acyl Radical Cyclisations
Oct 09	<b>Dr Danielle Skropeta</b> <i>University of Wollongong</i>	Discovery, Design and Development of New Therapeutic Agents: from the Alps to the Deep-sea
Oct 16	<b>Dr Allan Gamble</b> <i>ANU</i>	Hormone Regulation- Inhibition of Peptidylglycine alpha-amidating Monooxygenase (PAM)
Oct 23	<b>John Lynch</b> <i>PhD swansong</i>	Synthetic Studies towards the Spirofungins
Oct 30	<b>Adrian Lam</b> <i>PhD swansong</i>	TBA
Nov 06	<b>Phillip Van der Peet</b> <i>PhD Swansong</i>	Chemical Tools for the Study of Leishmania Mexina $\beta$ -1,2-mannosyltransferases
Nov 13	<b>Ina Ritsner</b> <i>PhD swansong</i>	Radicals Masquerading as Electrophiles: Exploring Frontier Orbital Interaction in free Radical Reactions. The Theoretical Studies
